

MANUFACTURING CAPABILITY

Structured OEM Manufacturing Partner
for Export-Oriented Oral Care Brands

Production Infrastructure

Primary Focus:

- Mouthwash OEM manufacturing

Extended Capability:

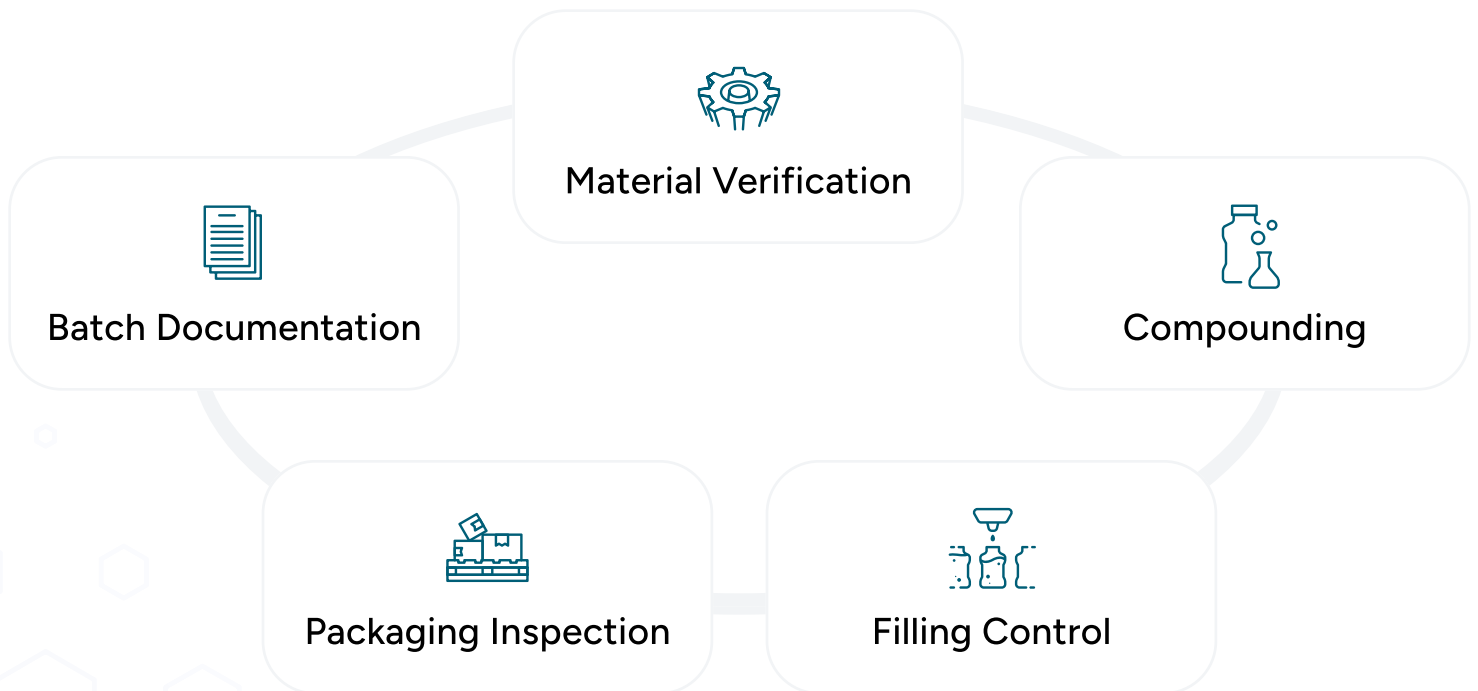

- Toothpaste (project-based)
- Breath spray

We operate as a structured OEM production partner.

Production Workflow

Each project follows structured stages including material verification, compounding, filling control, packaging inspection, and batch documentation.

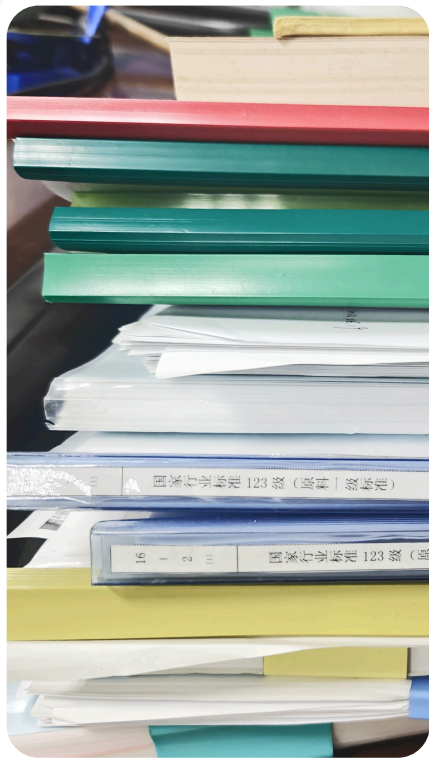

Scalability

We support pilot batches and repeat export production under aligned operational standards.

Stability

Product stability is verified through controlled testing procedures, supported by batch documentation and environmental monitoring to ensure repeatable production performance.
